TROUBLE FEARED IN PHILADELPHIA

Opposing Parties Issue Proclamations Which May Lead to Serious Rioting.

CORRUPTION FUND

Disbursed by Tammany Leaders in Greater New York

THOUSANDS OF DOLLARS PLACED WHERE IT WOULD DO THE MOST GOOD—MUCH EXCITEMENT OVER RESULT OF TODAY'S ELECTION—BETTING FAVORS McCLELLAN.

By Associated Press.

Philadelphia, Nov. 6.—On the eve of election, toward which Philadelphians have looked forward for six months, to decide whether municipal affairs shall be conducted as in the past, finds the situation so tense that no one would be surprised in the peace of the city is seriously disturbed to-morrow.

Matters reached the critical stage today when the mayor and sheriff, both leaders in their respective parties, issued antagonistic proclamations, swearing to uphold the law and protect citizens against the illegal votes of the opposing side.

Mayor Weaver in his proclamation declared Sheriff James L. Mills the head of a criminal combination to devise means to prevent honest expression of popular will at the polls to-morrow. Mills refused to reply saying he had not appointed extra deputies and had never considered such appointments.

The swearing in of special policemen began early today and continued to a late hour to-night. The intention of the administration is to have only five hundred extra men on duty, but there are persistent rumors that squads of policemen will resign to-morrow and join the opposition and that the mayor and his advisors thought it best to be prepared for any emergency.

Among the regiment of men sworn in are 250 students of the University of Pennsylvania and some from Swarthmore college and other institutions.

TAMMANY CORRUPTION MONEY DISTRIBUTED

New York, Nov. 6.—The spectacle of an anti-election distribution of funds by Tammany Hall attracted a crowd to-day that blocked Fourteenth street in front of the hall. The actual distribution was conducted by Philip J. Donohue, treasurer of the Tammany society.

One after another captains of the assembly districts drove up in carriages and were admitted to the executive chamber, where bundles of money in one and five dollar bills were passed them. It was carried away in satchels containing one to ten thousand dollars, according to the needs of the districts.

NEW YORK EXCITED OVER TODAY'S ELECTION

New York, Nov. 6.—The night before the municipal election is full of excitement over to-morrow's results. Never was there greater uncertainty under similar conditions here.

In Wall Street the betting this afternoon was two and one half to one that McClellan would be elected; two to one that Jerome would be successful, and six to one against Ivins's election as the republican candidate for mayor.

BOTH PARTIES CLAIM RHODE ISLAND VICTORY

Providence, R. I., Nov. 6.—The conclusion of one of the sharpest campaigns in the state finds each of the dominant parties claiming the victory to-morrow. It is conceded that the upper house of the legislature will be republican.

SHOWER HONORS ON PRINCE LOUIS

Visitor Overwhelmed With Kindness and Cordiality of His Reception.

LUNCHEON WITH ROOSEVELT, FOLLOWING VISIT TO TOMB OF WASHINGTON—SPECIAL TRAIN HELD WHILE HE AND PRESIDENT CHAT.

By Associated Press.

Washington, Nov. 6.—Honored by President Roosevelt by an invitation to luncheon at the White House, Prince Louis kept the special train to Annapolis waiting three quarters of an hour, while the president engaged him in a long personal conversation.

The White House luncheon was not on the program and was entirely a personal compliment to Prince Louis and his royal nephew, Prince Alexander, a midshipman on the Drake.

Prince Louis visited Mount Vernon in the morning, going down on the Dolphin commanded by Commander John Gibbons. A distinguished party accompanied him. At the tomb of Washington the prince uncovered and stood in silence for several moments paying an impressive tribute.

To reach Washington in time for lunch the prince and his nephew took a special train and on the way to the White House paid a farewell call on Ambassador and Lady Durand, whose guest he has been in Washington.

From the White House the two princes rode to the station in an automobile where they were joined by other British officers and Admirals Evans and Brownson.

Prince Louis expressed regret at the shortness of his stay in Washington and said he had been overwhelmed by the kindness and cordiality of his reception and entertainment.

UNEMPLOYED OF LONDON ARE DESPERATE

Thousands of Women March Through Streets and Threaten Bloodshed Unless Relieved.

By Associated Press.

London, Nov. 6.—The desperate condition of the poor of London was brought to the notice of Premier Balfour today by a remarkable deputation of wives and women relatives of the unemployed. They did not hesitate to tell the premier that unless something was done speedily to lessen their sufferings, there would be bloodshed.

Enormous crowds of women from all parts of London marched through the streets but only thirty women were admitted to see Premier Balfour.

The premier was very sympathetic and acknowledged that the evil was very real, but had little to suggest in the way of alleviation, excepting to express the hope that public charity would come to the aid of the unemployed. He deprecated the socialistic suggestion that industries be started at national expense for the benefit of the idle.

A mass meeting of women received the report of the committee with hisses at the name of the premier.

FUMIGATORS ARE BALKED

M. L. ROCH ARRESTED FOR PREVENTING THEM FROM FUMIGATING HIS HOME.

M. L. Roch, who refused to allow his home to be fumigated a week since, and secured a temporary restraining order against Drs. Kennedy and D'Alemberte and also against Foreman F. Klunker, was yesterday arrested, or rather instructed to be present this morning to answer to the charge of preventing the fumigation of his residence.

Yesterday morning, when the decision of Court Commissioner Coston was made known, the fumigators proceeded to the residence of Mr. Roch to continue the fumigation which they had commenced.

The owner ordered them from his premises, and shortly afterward they proceeded to report the matter, with the result that the city health officer made affidavit against him.

SOIL SURVEY FOR ESCAMBIA COUNTY

RESULT OF WORK TO DRAW PLANS FOR THE NEW BUILDING BY CHAMBER OF COMMERCE

Government Will Begin Work of Great Importance and Value to this Section of State.

Several months ago the Chamber of Commerce took up with the Bureau of Soils of the United States Department of Agriculture the matter of a soil survey of Escambia county, and while some time has been consumed in securing an order for this survey, the efforts of the Chamber of Commerce have at last been rewarded, as is evidenced by the following letter received yesterday by Secretary Jones:

United States Department of Agriculture
Bureau of Soils.
Washington, D. C., Nov. 3, 1905.
W. C. Jones, Secretary Chamber of Commerce, Pensacola, Fla.
Dear Sir:—I have the honor of placing in your hands a copy of the "Assignment of Soil Survey Parties for the Winter Season of 1905-1906." You will notice that your request for a soil survey of Escambia county has been met by the assignment of a party.

The field work will begin about December 1st, 1905.

Very truly,
MILTON WHITNEY,
Chief of Bureau.
The value to land owners of a soil survey is incalculable, and especially so in a section as little developed agriculturally as is the case in this section. Embraced in Escambia county are 680 square miles. Every acre of this area will be surveyed by soil experts, samples of soils found in the different sections of the county will be sent to the laboratory of the Agricultural Department at Washington for analysis, and upon the completion of the survey an exhaustive report will be published by the department detailing the character of soil on every acre of land in the county and describing the general topography of the territory embraced in the survey.

Accompanying the report will also be colored charts, minutely describing the location and area of the different characters of soil found, and upon the completion of the survey the farmers of Escambia county will have no difficulty in determining what particular crops their lands are especially adapted to.

Lee Lewman, of Atlanta, a member of the construction firm of Lewman Bros., of Atlanta, and Albert G. Bear, who is connected with the firm as architect, reached the city yesterday afternoon, and soon afterwards were busily engaged in mapping out plans for the new buildings which are to be erected in place of those destroyed by the fire.

The new building to be erected by F. C. Brent upon the site occupied by the buildings destroyed by the recent fire, occupied the attention of the gentlemen after their arrival, and sketches of the proposed building will be submitted to Mr. Brent within a short time, as it is the desire to have the new building commenced as soon as possible.

Mr. Newman is a member of a firm which has made a specialty of erecting steel and concrete buildings, and the new building will be erected of this material. The Flatiron building and a number of others in Atlanta were constructed by this firm.

The Waldorf Social Club, composed principally of young men of the city, and which has club rooms in the opera house building, held a most enjoyable session last night, when a number of new members were initiated.

The club is now composed of about thirty-five members, and it is expected that the number will increase rapidly.

He is accompanied by Dr. S. R. Malloy Kennedy. Both Dr. Porter and Dr. Kennedy stopped at Mobile yesterday on official business. During the day Dr. Porter was kept acquainted with conditions in Pensacola over the long distance and by telegraph.

Five Miles From Court House.

When the state health officer modified the quarantine restrictions around Pensacola allowing persons on business and who resided within a distance of five miles to enter, it was understood that the five mile limit meant that distance from the court house and not from the city limits. Some are under the impression that so long as they reside within five miles of the city limits they can come to Pensacola, but this is not so, and no such permits will be issued.

Yesterday a large number of permits were issued to those residing within the five mile limit, and who desired to come into the city upon business, arriving and departing within the time limit. Produce wagons were noticeable in all portions of the city, and many of the permits issued were to this class of people.

Only one case developed Sunday. The patient is Felix Gonzalez, of No. 323 West Chase street.

Miss Wilhelmina C. Anderson, one of the trained nurses, who came here from New Orleans a few weeks ago to assist in nursing yellow fever patients, developed one of the new cases. She was taken ill during the latter portion of last week, and yesterday developed a case of fever.

Murder, Pillage and Incendiarism Unchecked in Many Cities.

MASSACRE FEARED

Jews in City of Moscow are Said to be Terror-Stricken.

WHOLESALE BANKRUPTCY IS THREATENED IN ODESSA WHICH MAY AFFECT INTERNATIONAL CREDIT OF RUSSIA—2000 KILLED, 5000 INJURED BY RIOTERS IN CITY OF ODESSA.

By Associated Press.

St. Petersburg, Nov. 6.—News from the interior indicates that there has been little improvement in the situation and in some places disorders have recommenced with redoubled fury. The horrible story of the massacre at Odessa is not yet fully known here.

In the Caucasus the Tartars and Russians are cutting each others throats and the Armenians are giving themselves up to pillage and incendiarism.

A three day's attack on the Jews in Besarabia began on Thursday. The Jewish markets were sacked during the day, and the residences at night. Troops then arrived but on the following day the pillage was resumed under the eyes of the soldiers.

A telephone message from Moscow says the Jews are terror-stricken with fear of a massacre there.

MAY INVOLVE THE CREDIT OF RUSSIA

Odessa, Nov. 6.—Fresh disorders are reported this evening in a suburb of Dalmia and troops have been sent there. The theatre of Akkerman, near Odessa, is burning.

The governor general requested all local papers not to publish accounts of the happenings of last week to avoid inflaming the public. The editors acceded to the request.

Odessa papers will appear tomorrow after nine days interruption. The peasants in outlying districts are excited and are urged on by agitators from Odessa. In view of the entire devastation of nearly all the Jewish mills, shops and factories the trade of Odessa is threatened with complete ruin and wholesale bankruptcies are feared, involving the international credit of Russia.

It is claimed by some here that estimates of higher than two thousand killed and five thousand wounded are exaggerations.
